Summary

Creative and energetic Full Stack Web Developer with experience in design, digital content creation, and tech marketing. Delivering smart design solutions to smart people.

Keen on designing aesthetically appealing web interfaces with attention to detail and brand awareness. Skillfully implemented innovative web development concepts in a team setting to more efficiently create full stack projects. Bilingual in English and Spanish. Recognized for being a strong leader and communicator and taking initiative.

Projects

E-Volve

[Repo](#) / [Deployed App](#)

Tasks included designing and creating the MVC for React app, implementing routing with API's, and implementing CRUD database functionality.

Franklin Products Employee Management

[Repo](#) / [Deployed App](#)

Responsibilities were creating different login routes for different types of employees, and designing the UI while matching the company's pre-existing brand design using handlebars.

Dinner with Developers

[Repo](#) / [Deployed App](#)

Core responsibilities included webflow, and using HTML, CSS and JQuery to construct and display the outcome of our API calls.
